

# Golden Glow Lip Gloss (CC-L-10)

This glossy lip gloss gives a soft-feel and long-lasting colour, thanks to the addition of SeraSense® GB10 (Cyclopentasiloxane (and) Dimethiconol) and SeraSense® RB 21 (Dimethicone (and) Trimethylsiloxy silicate).

Raw Material/INCI Name	% w/w	Trade name/Supplier	Function
Polybutene	To 100	Polybutene/A&E Connock	Viscosity Modifier
Cyclopentasiloxane (and) Dimethiconol	3.00	SeraSense® GB 10/KCC Beauty	Softness, Improves Spreading

Mica (and) CI 77891 (and) CI 77491 (and) Dimethicone	1.00	Colorona MP-24 Karat Gold/Azelis	Glitter
Mica (and) Titanium Oxide (and) Tin Oxide	0.60	Sumicos Iridescent Red 43336/Surfachem	Shimmer

## Typical Properties

Appearance:	Glossy gold, viscous liquid
Viscosity @ 25°C:	6000 - 8000cPs (Brookfield RVT, Sp4, 10rpm)
pH @ 25°C:	n/a

## Method

Add the ingredients in order, whilst heating to 70°C.

Once at 70°C, ensure the mixture is homogenous, then cool to room temperature.

Fill into tubes.
