

Guide Formulation

Personal Care

Gentle Cleansing Oil (FW-1)

In Asia, cleansing oils are used as the first part of a two part cleansing regime. They gently remove make up and dirt without stripping the skin. The oil is spread across the face with the fingers and emulsified with a little water. SeraSense® SF CPM (Caprylyl Methicone) is highly compatible with organic materials and gives a non-greasy, dry feel.

Raw Material/INCI Name	% w/w	Trade name/Supplier	Function
Phase A			
Caprylic/Capric Triglycerides	12.85	Crodamol GTCC/Croda	Emollient
Cetearyl Ethylhexanoate (and) Isopropyl Myristate	14.00	Crodamol CAP/Croda	Emollient
